## 9th HYCOM Consortium Meeting

December 6-8, 2005  
RSMAS, Miami, FL

[Background Info](#) | [Hotel Info](#) | [Directions](#) | [Agenda](#) | [Local Weather](#) | [Attendees](#)

### Background Information

The HYCOM meeting has been **rescheduled** to take place in **Miami, FL** on **December 6-8, 2005**.

---

Those dates were chosen for logistic reasons and we apologize to those of you that may have to attend the AGU fall meeting in San Francisco that week.

For those of you that have previously registered for the Stennis HYCOM meeting, please let me know asap if you plan to attend or not, and if you wish to change the title of your presentation/poster.

If you were not registered to attend the Stennis HYCOM meeting, please email me the following information: Name, Institution, Title of presentation. These added presentations are likely to be posters, depending on how many changes will be made to the agenda that was circulated late August.

Logistics information will soon follow. There will be a registration fee that will cover coffee and dinner on Wednesday night.

Looking forward to seeing you all in Miami. Eric
